

FOOTPRINTS OF HOPE

MALAWI, SE AFRICA

What we do

Footprints of Hope in Malawi works in cooperation with Lilongwe Living Christian Church to show the love of Christ to one of the poorest areas of the worlds poorest country.

Through generous donations of finances as well as goods, we are able to help feed, educate, clothe and help build for the extreme needy in Area 23 of Lilongwe, Malawi.

Feeding Program

One of the biggest blessings is to be able to provide nutrition for the families in Area 23. The local church was able to target those families who were near starvation and provide them with food. In total NBCTK was able to help provide for over 700 people.

Malawians getting food at Christmas party.

Women in Area 23 receiving corn flour.

Education

Education is one of our primary goals of Footprints of Hope. The cycle of poverty is broken by education and not hand outs. We have been able to provide sewing machines so students can learn a trade to help them in the future.

Scholarships

Grace is one of our scholarship recipients and is currently attending African Bible College pursuing a degree in communications and business

Building

We have also been blessed to help with the building of a church building to help accommodate the amount of people coming to church and partaking in some of the programs we are able to sponsor.

....whatever you did for one of the least of these brothers and sisters of mine, you did for me. -Matthew 25:40
